

## SILVER DISTANCE:

A flight that includes a leg of at least 50 Km.

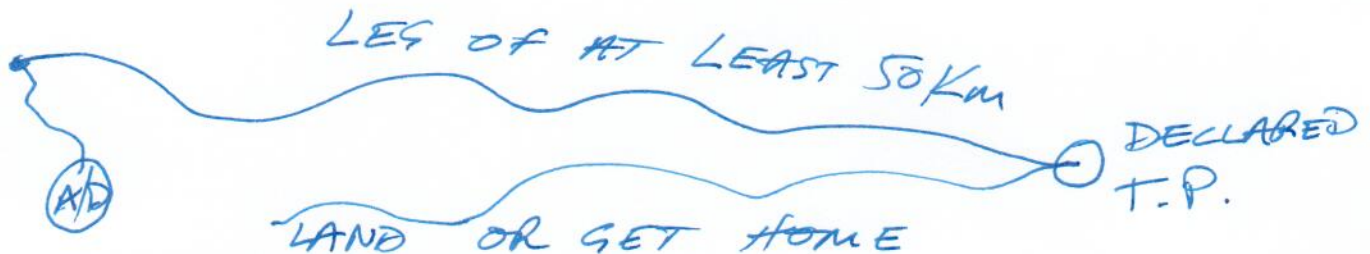

- 1) Straight Distance: from release to a landing, can be a barograph only with no declaration of turning points.

- 2) Straight distance, from release to a fix.

- 3) Declare 1 TP at least 50 Km from the start point, as in an out and return.

- 4) Declare 2 or more TPs, such that there is a leg of at least 50 Km.

OPTIONS 3 & 4 REQUIRE A FULL DECLARATION.
